Annealing Furnace

ZTCF-50A

Technical parameters

Model	ZTCF-50A
Voltage	AC 220V 50Hz/60Hz
Power	5500W
Vacuum	-96kpa
Max.Temperature	1200°C
Weight	180kg
Size	960*600*1150 mm(L*W*H)

Features

1. Automatic extraction and transfer basket, time-saving and easy to operate, not easy to bump;
2. Large chamber design, can burn 3 layers base board, with max diameter 200 mm. Meet most 3D printing base board;
3. Can store 100 custom programs;
4. Imported heating wire, long service life;
5. Green environmental and excellent thermal insulation materials makes the temperature more stable, Save power, Max temperature can reach 1200°C;
6. High vacuum, up to -96kpa, real-time monitoring of vacuum degree during operation;
7. Excellent sealing, High temperature control, vacuum maintenance automatically.
