Fast Zirconia Sintering Furnace

ZTCF-30B plus

Technical parameters

Fast Sintering Time	65 mins (including heating, keep warm, cooling)
Regular Program	Can stack 3 layers of the crucible and sintering 150 units teeth;
Max.Temperature	1730°C
Temperature Accuracy	Within $\pm 1^{\circ}\text{C}$
Touch Screen	7 "TFT Color
Power	3KW
Voltage	220V 50/60HZ 110V 50/60HZ
HeatingElement	High purity heater specially for dentistry
Cleaning Program	No.40
Total Program No.	40 programs, with power off memory function
Chamber Size	$\varnothing 110\text{mm} \times 120\text{mm}$
Size	590*470*850 mm(L*W*H)
Net Weight	85KG

Features

1. The fast sintering program takes only 65 mins (including heating, keep warm, cooling);
2. In the regular program, you can stack 3 layers of crucibles and sintering up to 150 units teeth;
3. High-purity and pollution-free dental silicon molybdenum rods;
4. PID intelligent temperature control system accurately controls the temperature, the temperature accuracy within $\pm 1^{\circ}\text{C}$;
5. Total can store 40 programs;
6. 7-inch color touch screen, display all parameters, easy to modify parameters;
7. Green environmental thermal insulation materials with excellent performance makes the temperature more stable;
8. Memory function, when the power off and on again, it can automatically start from the beginning of stage where the power off.
