Box-type sintering furnace

ZTCF-30B Mini

Technical parameters

Max.Temperature	1730°C
Temperature Accuracy	Within $\pm 1^{\circ}\text{C}$
Touch Screen	7'TFT
Power	3KW
Voltage	220V 50/60HZ 110V 50/60HZ
Heating Element	High purity heater specially for dentistry
Cleaning program	No.40
Total Program No.	40 programs, with power off memory function
Chamber Size	110*120*130 mm
Furnace Size	455*350*553 mm(L*W*H)
Net Weight	60 KG

Features

1. Unique safety lock design to avoid opening the door due to the wrong operation in working mode and avoid sintering failure;
2. The furnace chamber is compact and small, but can sintering up to 80 units teeth;
3. Using high-purity and no pollution dental silicon molybdenum rods;
4. PID intelligent temperature control system accurately controls the temperature the temperature accuracy within $\pm 1^{\circ}\text{C}$;
5. Total can store 40 programs;
6. 7-inch color touch screen displays all parameters, easy to modify parameters;
7. Green environment thermal insulation materials with excellent performance makes the temperature more stable;
8. Memory function, when the power off and on again, it can automatically start from the beginning of stage where the power off.
