Forming Machine

ZTCF-40A

Technical parameters

Diaphragm diameter	120mm/125mm
Diaphragm thickness	0-6mm
Touch screen	7" TFT color
Pressure	0.4-0.8 Mpa
voltage	220-240V, 50-60Hz
Power	380 watts
Noise level	less than 60dB
Size	370*420*630 mm(L*W*H)
Net weight	52 kg

Features

1. The thermoforming process and cooling time run automatically until complete;
2. The heated diaphragm is pressed vertically to the model, the thickness is uniform;
3. It has an automatic shut-off function to ensure work safety;
4. Medium-wave infrared heating don't need preheating, can't only heat the surface of the material, but also penetrate into the entire material;
5. The program includes all diaphragm;
6. Select the type and thickness of the diaphragm and start the program Automatically;
7. 7-inch color touch screen, display all parameters, easy to modify;
8. 100 custom programs easily added.
