Milling Machine CAD/CAM ZTMM-A5

Technical parameters

Axis	Five
Processing Way	Dry cut
Spindle	Max speed 60000r/min
Power	1.2kw
Range of rotation	"Axis A: -114°to +90°"
Tling rotation	C axis: 360°
Finishing Precision	± 0.005mm
Remote Maintenance	A/S
Tools	4 knives
Compressed Air	7bar, 50L/min
voltage	220V AC 50/60HZ
Materials to be milled	ZIR, PMMA, WAX PEEK
The size of material	98mm*10mm 98mm*25mm
Size	525X480X615mm
Net weight	73kg

Features

1. New design, Five axis with XYZAC;
2. Small and compact, easy to move and use;
3. Can be processed at large angles without dead ends. A axis can reach 0 degree to 90 degree, C axis can reach 0 degree to 90 degree;
4. Dry mode, pollution-free, low noise, can be equipped with a vacuum cleaner by yourself;
5. LED touch screen, simple to operation;
6. Most popular style, high demand, high sales.
