Muffle Furnace

ZTMF-10A

Technical parameters

Max.Temperature	1100°C
Heating Rate	≤70°C/min
Temperature Accuracy	Within ± 2°C
Power	4KW
Voltage	220V 50/60HZ
Heating Element	Dental silicon carbide rods
Program Stage	30 stages
Chamber Size	150*150*165 mm
Furnace Size	420*410*490 mm(L*W*H)
Net Weight	36 KG

Features

1. The safety switch function can automatically cut off the power to stop heating when the furnace door is opened, more safe;
2. The casing adopts a multi-point grounding design, and reserved grounding wires to ensure the safety of the operator;
3. Using high-performance, no pollution and heating evenly dental silicon carbide rods;
4. Temperature curve has 30 programmable stages, the heating rate and holding time can be set according to personal needs;
5. PID intelligent temperature control system accurately controls the temperature;
6. Green environmental thermal insulation materials, thick thermal insulation layer, have good thermal insulation effect and more energy-saving.
